## LRC56 Leather Matting Agent

Leather Mattin Agent is a dulling agent, to dull the sheen of leather paint.

Manufactured using the latest technology to change the sheen levels of paint, allowing colour mixing to be made easier.

Removes the sheen levels of paint.

Suitable for all types of leather paints

- Easy application
- Instant results
- Removes gloss levels
- Produces matt finish

The matting agent is a water-based product designed to dull paints and remove sheen, making colour mixing easier or to help blend off colours.

### **Instructions.**

Shake the bottle rigorously before use for many minutes.

Apply Leather Matting Agent, directly into leather paint or sneaker paints, use a filter and pour into your paints via the filter, this is to remove any small clumps that could build up with the matting agent, as matting agent is made from a powder.

Never exceed more than 30% matting agent in a colour mix.
